Date of Birth: 01 Oct 1995

SUMMARY

Results-driven Supply Chain Planning & Operations Professional with 8+ years of experience across pharmaceutical, manufacturing, electrical, and retail industries. Specialized in Demand Planning, Supply Planning, Production Planning, MRP, Inventory Optimization, and Supply Chain Performance Management across Make-to-Stock (MTS) and Make-to-Order (MTO) environments.

Experienced in reviewing and reconciling demand forecasts with Marketing and Sales, translating demand into raw material and packaging requirements, developing production plans, and coordinating with Production, Procurement, Warehouse, and Commercial teams to ensure product availability and operational efficiency.

Proficient in SAP S/4HANA, Microsoft Dynamics 365, Oracle JD Edwards, and Odoo ERP, with strong capabilities in Advanced Excel, data analysis, KPI reporting, and ERP-driven process improvement. Proven track record of delivering measurable results, including 95% production plan adherence, 98% inventory accuracy, 25% reduction in inventory carrying costs, 25% reduction in stockouts, and managing 5,000+ ERP Master Data records and customer-specific BOMs.

Focused on driving continuous improvement, optimizing end-to-end supply chain performance, and supporting strategic business decisions through data-driven planning and cross-functional collaboration.

EDUCATION

Bachelor's Degree in Management Information Systems (MIS) –El-Motatawera Advanced Academy, 2018

EXPERIENCE

Senior Supply Chain Planning Specialist | Semak Pharmaceutical Industries | Jul 2025 – Present

- Develop end-to-end production plans based on demand forecasts, historical sales, and sales orders, ensuring product availability while optimizing manufacturing capacity.
- Participate in monthly demand review meetings with Marketing and Sales to analyze forecast accuracy, reconcile demand variations, and align production requirements with business needs.
- Manage end-to-end Material Requirements Planning (MRP), translating production plans into detailed Raw Material (RM) and Packaging Material (PM) requirements, and ensuring timely material availability.
- Execute and monitor MRP processes using SAP S/4HANA and Odoo ERP, managing material replenishment, purchase requirements, and inventory planning to support uninterrupted production.
- Coordinate production priorities and schedules with factory teams, considering material availability, manufacturing capacity, and customer demand requirements.
- Monitor Finished Goods availability, stock coverage, confirmed sales requirements, and potential stockout risks to support effective order fulfillment.
- Implement and optimize Min-Max, Reorder Point, and Safety Stock strategies to improve inventory availability, reduce excess stock, and optimize working capital.
- Develop advanced Excel reports, dashboards, and KPI analyses covering demand trends, production performance, inventory levels, material shortages, and supply chain efficiency.
- Identify SAP system gaps and process improvement opportunities, define business requirements, and coordinate with the SAP Application Team to enhance planning processes and ERP functionality.

Sharkia Holding – Egypt
Supply Chain & Operations Specialist
Oct 2023 – Jul 2025

Senior Planning & Inventory Controller | BICC Cable (Mother Company) | Jan 2025 – Jul 2025

- Developed and optimized monthly production plans based on customer demand, material availability, and production capacity, achieving 95% production plan adherence.
- Collaborated with Production and Quality teams to utilize near-expiry raw materials through approved alternative formulations, reducing waste and optimizing inventory utilization.
- Reduced inventory carrying costs by 20% through effective stock optimization and replenishment planning.
- Increased inventory accuracy to 98% by implementing robust inventory control processes and regular cycle counts.
- Decreased stockouts by 25% through proactive planning, cross-functional collaboration, and data-driven inventory management.
- Implemented Min-Max and Reorder Point strategies to optimize inventory levels, improve material availability, and maintain healthy cash flow.
- Collaborated with Production to reduce material scrap and improve material utilization, contributing to overall operational cost reduction

ERP Master Data & Planning Specialist | Electro George – Panel Electric – (Sister Company for BICC Cable) | Oct 2023 – Jan 2025

- Established the ERP master data foundation by creating and governing 5,000+ Material Master records for electrical and mechanical components using Microsoft Dynamics 365.
- Developed 50+ standardized mechanical designs and engineering standards, improving product standardization and reducing engineering preparation time.
- Built customer-specific BOM structures for Make-to-Order (MTO) manufacturing, ensuring engineering accuracy and manufacturing readiness.
- Configured MRP parameters and planning master data, enabling accurate material planning and improving production continuity.
- Designed the warehouse location and racking structure, enhancing inventory visibility and material traceability.
- Worked cross-functionally with Engineering, Planning, Procurement, Production, and Warehouse to establish standardized business processes and master data governance.
- Contributed to the successful go-live of Microsoft Dynamics 365 ERP by defining master data standards, validating system data, and supporting end-user readiness.

Supervisor Stock Controller | Care Pharmacy | Jul 2020 – May 2023

- Improved inventory accuracy to 97% through regular audits.
- Reduced recurring stock issues by 30% using root-cause analysis.
- Ensured supplier compliance and eliminated defective stock problems.

Stock Controller | Dawaee Pharmacy | Oct 2018 – Jun 2020

- Streamlined receiving and dispatch operations, improving delivery time by 25%.
- Maintained accurate stock movement records and enhanced communication via Excel reporting.
- Optimized warehouse layout and material flow, increasing space utilization and reducing handling time by 20%

CERTIFICATIONS

- **Supply Chain Management – E-Youth**
- **Certificate Planning Inventory Manger (CPIM) – LinkedIn Learning**
- **Production Strategies – E-Youth**
- **Demand & Forecasting Management – E-Youth**
- **CSCMP Supply Chain Foundation – CSCMP**
- **Learning SAP MM Materials Management – LinkedIn Learning**
- **Data Analyses – SIS Courses**

CORE COMPETENCIES

- Inventory Control & Warehouse Optimization
- ERP Systems (Sap S/4Hana, Odoo, Oracle JD Edwards, Dynamics 365)
- Advanced Excel (Pivot Tables, Power Query, Automation)
- Reorder Point Analysis & Forecasting
- Cycle Counting & Variance Reduction
- Warehouse Layout & Racking Design
- Process Improvement & KPI Development
- Team Leadership & Staff Training

TECHNICAL SKILLS

- ERP Systems: Sap S/4Hana, Oracle JD Edwards, Odoo, Microsoft Dynamics 365
- Excel: Advanced (MRP Sheet, Pivot Tables, Power Query, Automation)
- Inventory Forecasting & Reorder Reports: Advanced
- Reporting Tools: Power BI (basic), Excel Dashboards

SOFT SKILLS

- Leadership & Teamwork: Leading and motivating teams effectively.
- Problem Solving: Quickly finding practical solutions to inventory and supply issues.
- Communication: Coordinating smoothly with different departments.
- Planning & Organization: Efficiently managing inventory and warehouse operations.
- Adaptability: Handling changes and challenges with ease.
- Analytical Thinking: Using data to improve decisions and performance

LANGUAGES

- Arabic: Native
- English: Professional Working Proficiency
